

INSTALLATION INSTRUCTIONS

Thank you for purchasing genuine Design Engineering, Inc. products. Be sure to always wear the proper safety equipment when installing any DEI product. Design Engineering Inc. WILL NOT BE HELD LIABLE FOR IMPROPER INSTALLATION OR USE OF THIS PRODUCT. Please follow all instructions provided. If you are unsure of any installation procedure, please contact a certified technician.

DESCRIPTION: 2023 Ford Transit Van
148" WB - High Cube Extended length
Part # 50454

KIT CONTENTS:
Pre-Cut Insulation Material
2 rolls adhesive transfer tape

TOOLS NEEDED:
Cleaner & Degreaser
Rags/Towels
Tools for interior panel removal

SAFETY:
Safety glasses
Gloves

NOTE OF CAUTION: Wear eye and hand protection when installing all materials. Use cleaners or degreasers in a well ventilated area

INSTALLATION TIP: This product contains many pieces. There may be multiple pieces that are the same shape and part number, and go in multiple locations. We suggest laying out all pieces before you install them to get a good overview of where each piece goes and which you have multiples of.

Refer to the instructions to see where each piece goes. We recommend laying out and grouping the pieces by size before you start. Once you are familiar with where each piece goes, clean the area where the adhesive transfer tape will be used, using a clean cloth and a mild cleaner like window cleaner.

INSTALLATION TIP: Adhesive transfer tape is not used on all pieces. See instructions for those pieces that are installed by using the tape. Use just enough tape to hold piece in place until the walls and finishing panels are installed.

NOTE: Note all pieces are 30mm thick. There are 12mm thick pieces as well. You will notice this difference when laying out the parts.

INVENTORY OF INSULATION PANELS

**THIS IS A COMPLETE LIST OF ALL NUMMMBERED
INSULATION PIECES IN THIS KIT**
