

NEW PRODUCT SELL SHEET

ADAPT-A-SHIELD XT HEAT BARRIER FORMABLE, FLEXIBLE EXTREME HEAT BARRIER

Overview:

Adapt-A-Shield is a formable, removable heat barrier designed to reflect engine and exhaust heat while protecting components, wire connections from abrasion and wear. Constructed from durable aluminum with a poly-glass cloth backing and just .011" thick, it's ultra-flexible, easy to cut with scissors, and simple to shape around tight or irregular areas. Adapt-A-Shield provides versatile, reliable protection in a convenient 12" x 17.5" sheet—perfect for custom heat-management applications.

KEY FEATURES

Conforms to Any Shape:

The formability is what makes Adapt-A-Shield the most versatile heat barrier available. It easily shapes, forms and adapts to any application

Protects What's Important:

Keeps heat away from components, electrical connections, fluid lines & more

Ease of Installation:

At only .011" thick, Adapt-A-Shield easily forms and installs without special tools or adhesives

Durable Construction:

Aluminum skin with poly-glass backing

Versatility:

Install and/or remove for quick fixes, or permanent heat barrier solutions

WHY CUSTOMERS NEED THIS PRODUCT

- Versatile heat barrier solution that can be installed and removed without tools or adhesives
- Extremely formable to fit around any component, connector or line/hose
- Cut to shape with scissors

EASILY FORM AROUND WIRE CONNECTIONS AND COMPONENTS
