

HEAT BARRIER

NEW

Heat Screen™ Reflective Radiant Matting

Heat Screen™ is an excellent method for reflecting unwanted heat from areas and surfaces needing protection. With a thickness of only .060 inches, Heat Screen requires minimal clearance and is capable of withstanding 2000°F of radiant heat. Ideal for protecting body panels, floor boards, gas tanks, fairings and for use under carpeting to name a few. Uses include race vehicles, marine, truck, SUV's, RV's, aviation and industrial applications. Aggressive adhesive backing for easy installation.

- High temperature resistant
- Keep vehicle interiors cooler
- Protect body panels
- Ideal for covering intake air tubes, air boxes, firewalls, floorboards & more
- Position in vehicle interior over high heat area's such as transmission tunnel, mufflers & catalytic converters
- Aggressive adhesive backing for easy install

HEAT SCREEN W/ADJESIVE BACKING

Part #	Description
10399	36" x 20" (5 sq ft)
10400	36" x 40" (10 sq ft)
10090	36" x Linear foot

* Special order custom cut lengths available
