

NEW PRODUCT FROM DEI

LINE AND HOSE PROTECTION

IN STOCK

AN Sized Heat Shroud™ Line Sleeving

AN sized Heat Shroud™ Sleeves for 20, 16 and 12 AN sizes are an ideal way to protect lines and hoses from heat and abrasions which could result in line and hose failure.

Sleeves are constructed from a high temperature rated glass fiber fabric with a heat reflective outer surface. The added convenience of a hook & loop closure design along the edge makes installation easy. No need to remove one end of AN hose, just wrap Heat Shroud Sleeve around hose and close the hook & loop edge. It's that simple.

Features:

- Superior thermal insulating properties
- Aluminized reflective outer layer
- High temp glass fiber insulating inner layer
- Hook and Loop closure

Advantages:

- Light weight for high performance applications
- Handles extreme temps
- Pliable so can be used on tight bends
- No need to disconnect lines to install

Benefits:

- Reduces heat strain on lines, hoses & wires
- Keeps lines safe from abrasions
- Protects fluids from potential vapor lock

**Sized perfectly
for AN sizes.
Easy wrap
around install**

**Wrap around design
allows for install
without removing lines**

AN SIZED HEAT SHROUD

Part #	AN Size	Length
10673	12AN	3ft
10674	12AN	10ft
10675	16AN	10ft
10676	16AN	3ft
10677	20AN	3ft
10678	20AN	10ft

**Available in 3ft & 10ft
lengths for 12, 16 &
20AN size hoses**
