

NEW PRODUCT SELL SHEET

JEEP TRANSMISSION PAN HEAT SHIELD

BLOCKS SEARING EXHAUST HEAT FROM SOAKING INTO TRANSMISSION PAN AND OIL

Overview:

Keep your transmission running cooler and performing better with DEI's Adhesive-Backed Transmission Pan Heat Shield. Designed specifically for JK, JL, and JT Wranglers, this precision-fit shield installs easily between the transmission pan and crossover pipe to block radiant exhaust heat and prevent heat soak into the pan and fluid. The result is lower transmission temperatures, enhanced performance, and longer component life—giving you greater reliability and peace of mind on every drive, trail, or tow.

KEY FEATURES

Protect your investment:

By lowering transmission fluid temps, your vehicle will last longer

Installs in seconds:

Quick peel and stick installation with an aggressive adhesive backing. Shield stays in place for years of protection

Extends component life:

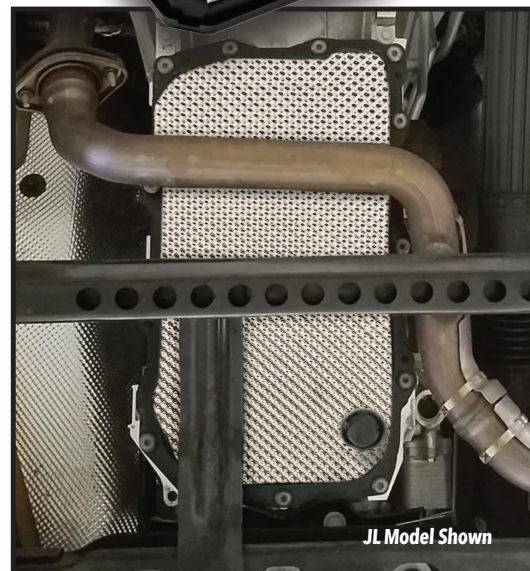

Keeping transmission coolant cool keeps sensors, electronics and transmission internals running smoothly

Range of applications:

'18 - UP Jeep Wrangler JL & JT w/ 850RE Transmission
'12 - '18 Jeep Wrangler JK w/ W5A580 Transmission
'07 - '11 Jeep Wrangler W/ VLP 42RLE Transmission

CNC Cut precision:

Laser scanned and CNC cut precision for a perfect fit.

WHY CUSTOMERS NEED THIS PRODUCT

- Keeps transmissions running at optimum temperatures
- Helps extend service length of transmissions & components
- Improves transmission performance and efficiency

Part Number: 10375
'18-UP JL & JT
850RE Transmission

Part Number: 10376
'12-'18 JK
