POLARIS XPEDITION SOUND CONTROL KIT 2024 & UP POLARIS XPEDITION ADV NORTHSTAR 2-DOOR & 4-DOOR

Overview:

Xpedition ADV interiors are EXTREMELY noisy. DEI's new Sound Control kit significantly reduces engine noise & vibration, delivering a quieter, more comfortable cabin on every ride. This comprehensive kit features a clean factory-finished look, and is built from durable, high-quality materials. Backed by DEI's trusted quality & performance and proudly made in the USA.

KEY FEATURES

Cabin Roof:

DEI D-Mat is precision CNC-cut to fit seamlessly inside the front and rear headliners, delivering effective sound deadening and thermal insulation across the entire roof area.

Tail Gate, Cargo Sidewalls, and Seat Base

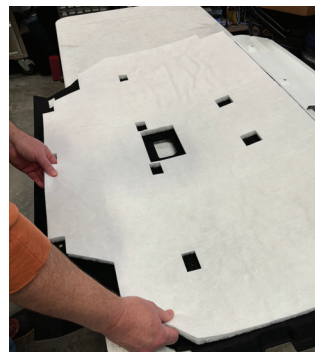

DEI Boom Mat Acoustic Material is precision CNC-cut for a perfect fit in these high-noise areas. Constructed from 2mm thick butyl rubber with an attractive felt-finished surface, it effectively deadens and absorbs sound while delivering a clean, finished appearance. The self-adhesive backing allows for a quick, easy installation.

Cargo Floor and Rear Firewall

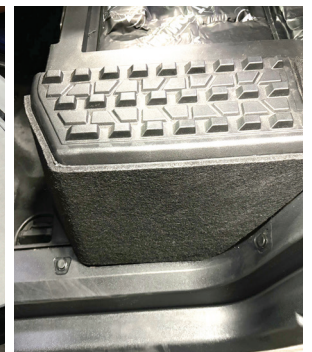

DEI Boom Mat is installed beneath the factory cargo liner to provide full, wall-to-wall coverage of the cargo floor and rear firewall. This 2mm thick butyl rubber material features a finished aluminum facing and a self-adhesive backing, delivering superior sound-deadening performance. The material is trim-to-fit and installs quickly.

WHY CUSTOMERS NEED THIS PRODUCT

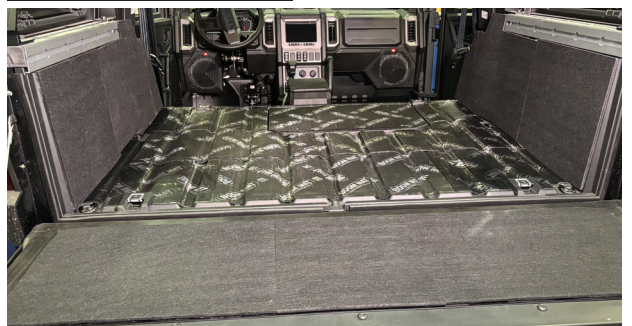

- Xpedition interiors are EXTREMELY noisy! This kit reduces noise and vibrations for comfortable ride.
- Improves acoustics and gives factory quality interior to unfinished bed & body panels
- Allows riders to have a longer more comfortable ride and have conversations at a normal audio level
