

HEAT SHIELDS

Stainless Steel Heat Shields

Made from durable 304 stainless steel and preformed with a curved shape to fit most any size pipes. Two layers of 304 stainless encapsulate a high temperature insulation, allowing up to a 2000°F direct temperature rating. Standoffs 1/2" high provide an air gap to the pipe and making mounting easy with provided stainless clamps. Two sizes available.

Features:

- Stainless Steel Heat Barrier material on outside surfaces
- Insulating inner layer
- Welded seams for strength and durability
- Stainless Steel stand offs to create air gap

Advantages:

- Extremely light weight
- Block heat & protect components better than factory shields
- Easy to install with stainless straps
- Flexible to shape around pipes

Benefits:

- Helps prevent burns & blocks uncomfortable heat
- Protects components from heat damage
- Increases driver & passenger comfort

HONDA TALON 1000 HEAT SHIELD KIT

Part #	Description
10254	Stainless Steel Pipe Shield 4.5" x 8.5"
10255	Stainless Steel Pipe Shield 6" x 12"

Welded edges for strength and stainless steel standoffs to create insulating air gap
