Vibration Damping / Speaker Performance Speaker Upgrade Kit

Boom Mat Speaker Upgrade Kit is the perfect solution for quickly improving speaker sound and performance by reducing vibrations and improving acoustics. Simply remove speaker, apply Boom Mat on metal mounting surface, and re-install speaker. It's that simple!

- Eliminate squeaks, rattles & improve acoustics
- Flexible – can be applied to irregular surfaces
- Unaffected by temperature extremes
- Works great on steel, fiberglass or plastic
- Easily trim to size, peel & stick

Remove speaker, apply material, re-install speaker

Kit Includes:

4 - 6" x 12.5" (2.1 sq ft) sheets of Boom Mat Damping Material.

SPEAKER UPGRADE KIT

Part #	Description
050199	Speaker Upgrade Kit
