

# UTV Heat Shield Polaris® RZR™

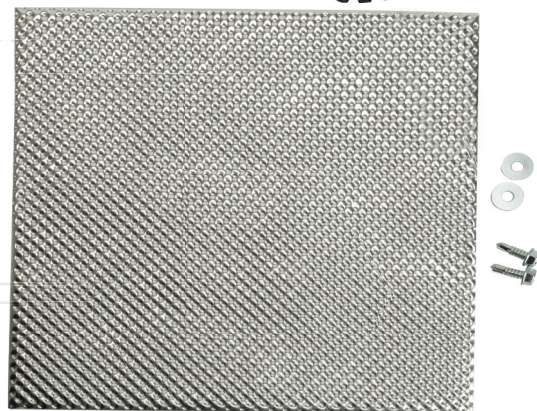

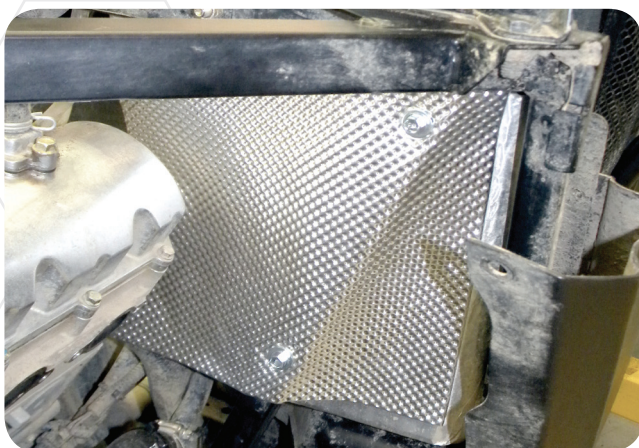

## UTV Heat Shield Polaris RZR

The compact space around the engine and headers can get pretty toasty on most UTV's. Especially when running under hard conditions. DEI has developed an inexpensive and easy solution to help avoid melted plastic and keep heat away from the passenger. Our heat shield is made up of a heavy duty 10mil aluminum with 1/8" glass mat barrier material, pre-cut to the correct size for the RZR 800. Mounting hardware is also included to make installation a breeze.

- Blocks heat more effectively than reflective tapes
- Flexible material for easy fit
- Easy to install

### Polaris RZR Heat Shield

Part #	Description
010880	UTV Heat Shield Polaris RZR 800/800S 2008-2014
